DETAILED ACTION

1. Claims 1-47 are pending. The decision of the Board of Patent Appeals and Interferences mailed on September 22, 2005 has reversed the final rejection of claims 1-47.

Allowable Subject Matter

2. Claims 1-47 are allowed.

3. The following is an examiner's statement of reasons for allowance:

As decided by the Board of Patent Appeals and Interferences (September 22, 2005), the static checker of the Detlefs reference ("Extended Static Checking") does not provide for other than reporting specific error messages without allowing the error message to include a program trace for identifying the path through the program. Accordingly, the prior art of record does not expressly teach the limitations recited in each of the independent claims 1, 23 and 47, such as the claimed flow control labels that provide for the program trace for identifying the path through the program.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
